

SADHBHAVANA WORLD SCHOOL

Bringing the World to the Classroom

Central Board of
Secondary Education

Sadhbhavana has a unique curriculum framework called the Y-Format. This has an international early-year curriculum called “Whystles” as the base, then a curriculum mapped to suit Indian as well as international curricula for its primary program called IPP (Integrated Primary Program) and finally after grade 7 the curriculum branches into CBSE and Cambridge, giving children the opportunity to choose the branch they want to pursue. Here is a little about the CBSE Curriculum.

The CBSE Curriculum

The CBSE (Central Board for Secondary Education) curriculum provides education with a global perspective. CBSE envisions a robust, vibrant and holistic schooling that engenders excellence in every sphere of human endeavour. The Board is committed to providing quality education that promote intellectual, social and cultural vivacity among its learners. CBSE not only imparts knowledge to the students but also ensures overall physical and mental growth. CBSE being the national curriculum of India, provides educational material and teaching methodologies that are conducive to the national interests of the country. Sadhbhavana offers CBSE from grade 8 to grade 12.

Benefits for Children

The curriculum uses an integrated approach to instil values among students. There are student-friendly and student-centred paradigms that make the learning experience for each student innovative as well as fun. One of the biggest benefits of the CBSE board is that it focuses on the overall growth of a child. Students are encouraged to look beyond books. A lot of importance is given to skills and technical knowledge which make them future ready. Since most of the medical and engineering competitive exams are based on the NCERT books, students who study in CBSE definitely have an edge over children coming from any other board.

Subjects Offered in **Grade 8**

Scholastic

English Mathematics Social Studies Science Second Language Hindi or Malayalam or French

Third Language

Hindi or Malayalam or French Information Technology

7 Subjects

Medical / Engineering Entrance Coaching

This is a special add-on offered to CBSE students. Coaching is provided to the students to enable them to crack the entrance exams including NEET, AIIMS, and JEE. A team of highly qualified, experienced, and eminent teaching professionals, who are pros in entrance coaching, ensure that students are on the right path towards success.

The students of the senior secondary school who choose entrance coaching are provided with an integrated program targeted for medical / engineering entrances. Hence, apart from the regular classes, these students will attend evening classes, and holiday classes. The students are thus required to stay in the Sadhbhavana boarding facility.

Students who opt for this package are not only availing the opportunity to study under some of the icons in the field, but also the opportunity to live in one of the safest campuses in India having the most favourable environment, and top-notch amenities.

Students are continuously placed in the **Top 0.1 Percentile of Successful Candidates** in their board examinations

Join our CBSE Curriculum which provides opportunities for students to achieve excellence in learning
